

# KUN CHEN

**CONTACT**      314 Philip E. Austin Building      Phone: (860) 486-4847  
Department of Statistics      E-mail: [kun.chen@uconn.edu](mailto:kun.chen@uconn.edu)  
University of Connecticut      Web: [kun-chen.uconn.edu](http://kun-chen.uconn.edu)

215 Glenbrook Rd. U-4120  
Storrs, CT 06269-4120

**EDUCATION**      *Ph.D. in Statistics*      2011  
Department of Statistics and Actuarial Science, University of Iowa, Iowa  
City, Iowa, USA  
Thesis: Regularized Multivariate Stochastic Regression  
Advisor: Dr. Kung-Sik Chan

*M.S. in Statistics*      2007  
Department of Mathematics and Statistics, University of Alaska Fairbanks,  
Fairbanks, Alaska, USA

*B.Econ. in Finance*      2003  
*Dual B.S. in Computer Science and Technology*      2003  
Department of Statistics and Finance, University of Science and Technol-  
ogy of China, Hefei, Anhui, China

## EMPLOYMENT

08/2023–      *Professor*, Department of Statistics, University of Connecticut, Storrs, CT

08/2018–08/2023      *Associate Professor (Tenured)*, Department of Statistics, University of Con-  
necticut, Storrs, CT

05/2014–      *Research Fellow*, Center for Population Health, University of Connecticut Health  
Center, Farmington, CT

08/2013–08/2018      *Assistant Professor*, Department of Statistics, University of Connecticut, Storrs,  
CT

08/2011–08/2013      *Assistant Professor*, Department of Statistics, Kansas State University, Man-  
hattan, KS

## HONORS & AWARDS

- Innovative Scholarship Award, College of Liberal Arts & Sciences (CLAS), UConn      2024
- Leadership Fellow, CLAS, UConn      2023
- Fellow of the American Statistical Association (ASA)      Since 2022
- Elected Member of International Statistical Institute (ISI)      Since 2015

- [124] Wang, W., Chen, K., and Yan, J. *intsurv: Integrative Survival Modeling* (2019). R package version 0.2.0.
- [125] Li, Y., Chen, K., and Yan, J. *tls: Tools of Total Least Squares in Error-in-Variables Models* (2018). R package version 0.1.0.
- [126] Chen, K. *rrpack: Reduced-Rank Regression* (2017). R package version 0.1-5.
- (Some computational packages are available at [kun-chen.uconn.edu/code/](http://kun-chen.uconn.edu/code/).)

## GRANTS

(The listed dollar amount is the amount awarded or sub-contracted to Chen, if not otherwise specified.)

### EXTERNAL

- Exploring cumulative social determinants burden, cancer, and accelerated aging: The role of physical activity as a moderator. National Institutes of Health ([R03CA297274](#)). Co-I (PI: Dr. Keith Bellizzi). 12/01/2024–11/30/2026. Active.
- Elucidating the impact of nano-agricheicals on paddy soil health and rice production through combined greenhouse studies and machine learning. USDA ([2023-67021-39755](#)). Co-PI (PI: Dr. Samuel Ma at TAMU); \$153,329; 04/01/2023–03/31/2027. Active.
- Integrative learning of fluorescence fluctuations in perovskite quantum dots using a data science assisted single-particle approach. National Science Foundation ([CHE-2203854](#)). Co-PI (with Dr. Jing Zhao); 09/01/2022–08/31/2025. Active.
- Improving identification of pediatric patients at risk of child physical abuse. The Patterson Foundation. PI on sub-award (PI: Amy A. Hunter); 01/31/2023 – 01/30/2025. Active.
- Conference: UConn Sports Analytics Symposium: engaging students into data science. National Science Foundation ([DMS-2219336](#)). Co-PI (with Dr. Jun Yan, Dr. Elizabeth Schifano, Dr. Laura J. Burton, and Dr. Robert A. Huggins); 09/01/2022–08/31/2025. Active.
- Developing suicide risk algorithms for diverse clinical settings using data fusion. National Institutes of Health ([R01-MH124740](#)). MPI (with Dr. Robert Aseltine and Dr. Fei Wang); \$868,482; 09/16/2020–06/30/2025. Active.
- Improving suicide prediction using NLP-derived social determinants of health. National Institutes of Health ([R01-MH125027](#)). PI on sub-award (PI: Dr. Hong Yu at UMass & VA); \$327,629; 09/01/2020–06/30/2025. Active.
- Reciprocal modulation of the microbiome and cellular senescence in metabolic dysfunction. National Institutes of Health ([R01-AG068860](#)), PI on sub-award (PI: Dr. Yanjiao Zhou at UCHC); \$234,127; 09/10/2020–05/31/2025. Active.
- Improving the identification of patients at risk of suicide. National Institutes of Health ([R01-MH112148](#)). PI on sub-award (PI: Dr. Robert Aseltine); \$456,550; 07/01/2017 – 06/30/2023. Active.

- Improving the identification and management of suicide risk among patients using prescription opioids (HEAL Supplement). National Institutes of Health ([R01-MH112148-03S1](#)). PI on sub-award (PI: Dr. Robert Aseltine); \$346,074; 09/18/2020–06/30/2022. Completed.
- Comprehensive heterogeneous response regression from complex data. National Science Foundation ([IIS-1718798](#)), PI; \$250,000; 09/01/2017–08/31/2021. Completed.
- Integrative multivariate analysis with multi-view data. National Science Foundation ([DMS-1613295](#)). PI; \$150,000; 09/01/2016–08/31/2020. Completed.
- Modeling and analysis of large insurance claim and occurrence data: a partnership between UConn & Travelers. Travelers Insurance. Co-PI (PI: Dr. Dipak Dey); 08/01/2016–07/31/2020. Completed.
- An integrative statistics-guided image-based multi-scale lung model. National Institutes of Health ([U01-HL114494](#)). Consortium PI; \$173,521; 08/01/2013–05/31/2018. Completed.
- Structured low rank modeling for multivariate statistical learning. Simons Foundation (#359404). PI; \$35,000; 09/2015–08/2020. Completed in 2016 (due to other support).
- Garrett Lee Smith Suicide Prevention. U.S. Substance Abuse and Mental Health Services Administration. PI on sub-award; \$20,995; 07/01/2016–12/31/2016. Completed.
- New England eConsult Network. PI on sub-award; \$23,207; 01/19/2016–05/30/2016. Completed.

#### INTERNAL

- Coupling risk screening and predictive algorithms to improve the identification of patients at risk for suicidal behavior. Alan R. Bennett Public Health Policy Research. PI; \$30,000; 06/2024-06/2025. Active.
- Double jeopardy? Social determinants of health and accelerated aging in breast cancer survivors. Connecticut Breast Health Initiative (CTBHI). Co-I (with Dr. Keith Bellizzi); \$50,000 (total); 06/2024-06/2025. Active.
- Social determinants of health and accelerated aging in adults with cancer: Leveraging the All of Us research program. CLAS Summer Research Funding. PI (with Dr. Keith Bellizzi); \$22,362 (total); 5/23/2023-8/22/2023.
- Leadership Fellow. CLAS Dean's Office. PI; \$7,500 for leadership development; 2022–2023.
- Understanding community- and individual-level factors underlying firearm violence in America: Focus on the State of Connecticut. The Interdisciplinary CLAS Pilot Grant Program. Co-PI (with Dr. Mary Bernstein from Sociology and Dr. Blair Johnson from Psychological Sciences); 12/2019–12/2020. Completed.
- Data Science Lab: Real-world data science problems meet future data scientists. UConn CLAS Fund for Innovative Education in Science. PI (with Elizabeth Schifano and Jun Yan); \$65,000; 01/01/2017–12/31/2019. Completed.
- Integrative multivariate analysis with multiple sets of variables of high dimensionality. UConn Faculty Large Grant. PI; \$19,399; 01/01/2014–12/31/2014. Completed.
- Source-sink reconstruction through regularized multi-component regression analysis. K-State Faculty Development Award. PI; \$1,000; 06/01/2013–12/31/2013. Completed.

- High-dimensional multivariate modeling via matrix decomposition and regularization. K-State Faculty Enhancement Award. PI; \$10,000; 01/01/2012–12/31/2012. Completed.

## TEACHING

### @DEPARTMENT OF STATISTICS, UNIVERSITY OF CONNECTICUT

- STAT:5915 Data Science in Action (3 cr., graduate level)
- STAT:6494 Modern Dimension Reduction with Big Data (3 cr., graduate level)
- STAT:5725 Linear Statistical Models I (3 cr., graduate level)
- STAT:6694 Linear Statistical Models II (3 cr., graduate level)
- STAT:5361 Statistical Computing (3 cr., graduate level)
- STAT:5665 Applied Multivariate Statistics (3 cr., graduate level)
- STAT:3375 Introduction to Mathematical Statistics (3 cr., undergraduate level)
- STAT: 3515/5515 Design of Experiments (3 cr., undergraduate and graduate levels)
- STAT:3115/5315 Analysis of Experiments (3 cr., undergraduate and graduate levels)

### @DEPARTMENT OF STATISTICS, KANSAS STATE UNIVERSITY

- STAT:905 High Dimensional Data and Statistical Learning (3 cr., graduate level)
- STAT:730 Multivariate Statistical Methods (3 cr., graduate level)
- STAT:510 Introductory Probability and Statistics (3 cr., undergraduate level)

### @DEPARTMENT OF STATISTICS AND ACTUARIAL SCIENCE, UNIVERSITY OF IOWA

- 22S:101 Biostatistics (3 cr., undergraduate level)

### SHORT COURSES

- “Integrative Multivariate Statistical Learning in Healthcare Research with Real-World Data”. Half-day short course, with Dingfeng Jiang. 2017 ICSA Applied Statistics Symposium, Chicago, IL. June 2017.
- “Practical Integrative Statistical Learning: Recent Developments and Case Studies”. Full-day short course, with Robert Aseltine. The 31st New England Statistics Symposium, Storrs, CT. April 2017.
- “Modern Multivariate Statistical Learning: Methods and Applications”. Full-day short course, with Jun Yan. The 29th New England Statistics Symposium, Storrs, CT. April 2015.

## STUDENTS

### CURRENT PH.D. STUDENTS

- Ziyue Li, UConn Statistics (2024–)
- Franky Zhang, UConn Statistics (2023–)
- Jing Wang, UConn Statistics (2022–)
- Xiaohui Yin, UConn Statistics (2022–)
- Xin Yang, UConn Statistics (2022–).

## PH.D. GRADUATES

(Please check [here](#) for more recent news about my students.)

- Jiadong Fang, UConn Statistics (Defended December 2024). Quantile and expectile regression with rare feature aggregation. Statistician at Abbvie.
- Jin (Bruce) Jin. UConn Statistics (Defended July 2024). On large-scale transfer learning with heterogeneous data. Assistant Professor, Department of Epidemiology and Biostatistics, Michigan State University.
- Boyang Tang, UConn Statistics (Defended September 2023). Stagewise majorization minimization algorithms for regularized learning with applications. Statistician at FDA.
- Jianmin Chen, UConn Statistics (Defended July 2023). Tree-guided rare feature selection and logic aggregation. Postdoc at UPenn.
- Zhongmao Liu, UConn Statistics (Defended July 2023). Pursuing sources of heterogeneity in microbiome community structure. Statistician at FDA.
- Biju Wang, UConn Statistics (Defended July 2021). On targeted integrative learning via distance segmented regression. Biostatistician at Johnson & Johnson.
- Wanwan Xu, UConn Statistics (Defended June 2021). Topics on statistical data fusion with public health applications. Postdoc at Yale.
- Yan Li, UConn Statistics (Defended June 2021; Joint with Jun Yan). Amalgamation-based statistical learning for compositional data. Assistant Professor, Auburn University.
- Zhe Sun, UConn Statistics (Defended April 2021). On statistical modeling of longitudinal compositional data with applications in a preterm infant study. Postdoc at Yale.
- Xiaokang Liu, UConn Statistics (Defended April 2020). Integrative multivariate learning via composite low-rank decompositions. Assistant Professor, University of Missouri, Columbia.
- Wenjie Wang, UConn Statistics (Defended August 2019; Joint with Jun Yan). Integrative survival analysis with application to suicide risk. Senior Research Scientist, Eli Lilly and Company.
- Aditya Mishra, UConn Statistics (Defended August 2017; Joint with Dipak Dey). On sequential estimation of multivariate associations. Assistant Professor, University of Georgia.
- Chongliang Luo, UConn Statistics (Defended July 2017; Joint with Dipak Dey). On integrative reduced-rank models and applications. Assistant Professor, Washington University in St. Louis.
- Gregory Vaughan, UConn Statistics (Defended July 2017; Joint with Jun Yan). Stagewise estimating equations. Associate Professor, Bentley University, Waltham, MA.
- Xiuqin Bai, K-State Statistics (Defended June 2014; Joint with Weixin Yao). Robust fitting of mixture regression models. Associate Professor, Kansas State University.
- Chun Yu, K-State Statistics (Defended May 2014; Joint with Weixin Yao). Robust mixture modeling. Associate Professor, Jiangxi University of Finance and Economics, Jiangxi, China.

## M.S. GRADUATES

- Indu Seetharaman, K-State Statistics (defended May 2013). Composite bridge regression for bi-level selection.
- Rohan Khatavkar, K-State Statistics (defended June 2013). Sparse and orthogonal singular value decomposition.

#### **POST DOC.**

- Shane Sacco (June 2021– June 2024). Assistant Professor, School of Medicine, UConn Health Center.
- Chongliang Luo (August 2017 – August 2018). Assistant Professor, School of Medicine, Washington University at St. Louis.

#### **VISITING SCHOLAR**

- Jian Liang, Tsinghua University, Beijing, China. 03/2016–09/2016.

#### **STUDENT ACHIEVEMENTS & AWARDS**

- Xiaohui Yin, Student Paper Award, from the Mental Health Statistics Section of the American Statistical Association in 2024.
- Jianmin Chen, Poster Award, from the Conference Celebrating UConn Department of Statistics 60th Anniversary in October 2022.
- Jin Jun, Honorable Mention in Student Paper Competition, from the Section on Risk Analysis of the American Statistical Association in 2022.
- Zhe Sun, John van Ryzin Award for the Best Paper at ENAR 2020.
- Zhe Sun, ENAR Distinguished Student Paper Award, 2020.
- Yan Li, ENAR Distinguished Student Paper Award, 2020.
- Jackson Lautier, Graduate Research Fellowship Award, National Science Foundation, 2020.
- Yan Li, Student Research Award, from the 33rd New England Statistics Symposium in 2019.
- Xiaokang Liu, Student Research Award, from the 33rd New England Statistics Symposium in 2019.
- Xiaokang Liu, Honorable Mention in Student Poster Competition, from the Fourth International Workshop on the Statistical Analyses of Multi-outcome Data (SAM) in 2018.
- Wanwan Xu, Honorable Mention in Student Poster Competition, from the Fourth International Workshop on the Statistical Analyses of Multi-outcome Data (SAM) in 2018.
- Wenjie Wang, Student Research Award, the 31st New England Statistics Symposium in 2017.
- Gregory Vaughan, Student Paper Award, from the Mental Health Statistics Section of the American Statistical Association in 2017.
- Chongliang Luo, Student Paper Award, from the International Chinese Statistical Association in 2015.
- Gyuhyeong Goh, Student Paper Award, from the Section on Bayesian Statistical Science of the American Statistical Association in 2015.

## PROFESSIONAL ACTIVITIES & SERVICES

### PROFESSIONAL MEMBERSHIPS

- Fellow, American Statistical Association (ASA) 2022–
- Life Member, New England Statistical Society (NESS) 2017–
- Elected Member, International Statistical Institute (ISI) 2015–
- Member, International Biometrics Society, ENAR 2010–
- Life Member, International Chinese Statistical Association (ICSA) 2010–
- Member, Institute of Mathematical Statistics (IMS) 2009–
- Member, American Statistical Association (ASA) 2006–

### POSITIONS

- Board Member, ICSA Board of Directors 2024–
- Member, Connecticut All-Payer Claims Database (APCD) Data Release Committee (DRC),  
Office of Health Strategy, State of Connecticut 2017–
- President, ASA CT Chapter 2023–2024
- Program Chair, Section on Statistical Computing, ASA 2022–2024
- Vice President, Secretary, ASA CT Chapter 2022–2023
- Executive Secretary, NESS 2017–2021

### EDITORIAL WORK

- Associate Editor, *Annals of Applied Statistics* 2023–
- Associate Editor, *Journal of Data Science* 2022–
- Editorial Board reviewer, *Journal of Machine Learning Research* 2020–
- Associate Editor, *Sankhya Series B* 2016–
- Co-Editor, 2015 ICSA Symposium Proceeding Book 2015

### REFEREE SERVICE

I've reviewed many papers (more than 100 as of 2024) for top statistical and machine learning journals. Below is a selected list.

- *Annals of Applied Statistics*
- *Annals of Statistics*
- *Biometrics*
- *Biometrika*
- *Journal of Business and Economic Statistics*
- *Journal of Computational and Graphical Statistics*
- *Journal of Machine Learning Research*
- *Journal of Multivariate Analysis*
- *Journal of the American Statistical Association*
- *Journal of the Royal Statistical Society: Series B*
- *Statistics and Computing*
- *Statistics in Medicine*

- *Statistica Sinica*
- *Technometrics*

### CONFERENCE SERVICE

- Co-Chair of Organizing Committee. The 37th New England Statistics Symposium, Storrs, CT. May 2024
- Co-Chair of Organizing Committee. Pharmaceutical Data Science Conference. March 2024
- Co-Chair of Organizing Committee. New England Rare Disease Statistics Workshop. October 2023
- Co-Chair of Organizing Committee. ASA Statistical Computing in Action Mini-Symposium. November 2023
- Co-Chair of Organizing Committee. The 21st ASA-CT Mini-Conference. April 2023
- Co-Chair of Organizing Committee. ASA Statistical Computing in Action Mini-Symposium. 2022
- Associate Program Chair, 2022 Joint Statistical Meeting. 2022
- Co-Chair of Organizing Committee. The 35th New England Statistics Symposium, Storrs, CT. 2022
- Organizing Committee. The 34th New England Statistics Symposium, Providence, Rhode Island. 2021
- Steering Committee. New England Rare Disease Statistics (NERDS) Workshop. 2019–
- Organizing Committee. ASA-BI-NESS Webinar Series. 2019–
- Organizing Committee. UConn Sports Analytics Conference. 2019
- Program Committee. The 33rd New England Statistics Symposium, Hartford, CT. May 2019
- Organizing Committee. The 3rd Stat4Onc Annual Symposium, Hartford, CT. April 2019
- Co-Chair of Organizing Committee. Conference on Bayesian Modeling, Computation, and Applications, Storrs, CT. May 2018
- Organizing Committee; full-day short course instructor. The 31th New England Statistics Symposium, Storrs, CT. April 2017
- Panelist on career development; judge on poster competition. The 30th New England Statistics Symposium, New Haven, CT. April 2016
- Invited Session Organizer; session chair. ICSA Applied Statistics Symposium and 13th Graybill Conference, Fort Collins, CO. June 2015
- Full-day short course instructor; invited session organizer; judge on student paper competition; judge on poster competition. The 29th New England Statistical Symposium, Storrs, CT. April 2015
- Invited Session organizer, The 6th International Statistics Forum, Renmin University of China, Beijing, China. May 2014
- Session chair, BIRS Big Data Workshop, Banff, Calgary, Canada. February 2014
- Session chair, ENAR Meeting in Washington, DC 2012

### UNIVERSITY & DEPARTMENT SERVICE

#### AT UCONN

- Chair, Faculty Search Committee 2021–
- Chair, Committee on Graduate Students and Distinguished Alumni Awards 2022–

- Member, Department 3 + 1 Admission Committee 2014–
  - Member, Department Graduate Admissions Committee 2013–
  - Member, CLAS Strategic Plan Advisory Committee 2022–2023
  - Co-Chair, Q-Subcommittee of UConn General Education Oversight Committee 2018–2021
  - Member, Committee of UConn General Education Oversight Committee 2018–2021
  - Member, Q-Subcommittee of UConn General Education Oversight Committee 2014–2021
  - Chair, Department Undergraduate Curriculum Committee 2016–2020
  - Member, CLAS Curriculum & Course Committee 2016–2018
  - Chair, Committee on New England Statistical Society 2016–2017
  - Member, Department Colloquium Committee 2014–2018
- AT K-STATE
- Chair, Ph.D. Exam Committee on Linear Models 2012–2013
  - Chair, Department Seminar 2012–2013
  - Member, Student Assessment Committee 2011–2013
  - Member, Departmental Scholarships and Awards Committee 2011–2012
  - Member, Graduate Student Progress Committee 2011–2012

## PRESENTATIONS

### INVITED TALKS

1. Research & Scholarship Seminar. School of Nursing, UConn. March 2025.
2. Colloquium Talk. Department of Mathematics & Statistics, Binghamton University, Binghamton, New York. March 2025.
3. “Salvaging forbidden treasure in medical data: utilizing single-record data to improve rare event prediction.” Conference on New Perspectives on the Analysis of Complex Multivariate Data, University of Minnesota, Twin Cities. May 2024.
4. Colloquium Talk. Center for Health Statistics, University of Massachusetts, Lowell, MA. February 2024.
5. Virtual Colloquium Talk. University of Electronic Science and Technology of China, Chengdu, China. January 2024.
6. “Rare feature selection and logic aggregation through convex optimization.” Eighth International Conference on Statistical Optimization and Learning. Beijing, China (virtual). December 30, 2023.
7. “Social Determinants of Health: Methods for Detection and Epidemiological and Clinical Applications.” AMIA, New Orleans, LA. October 2023.
8. “Scalable and Interpretable Rare Feature Aggregation.” ICSA China Conference, Chengdu, China. July 2023.
9. Colloquium Talk. Sichuan Normal University, Chengdu, China. June 2023.
10. Colloquium Talk. Chengdu University of Technology, Chengdu, China. June 2023.
11. “Scalable and interpretable rare feature aggregation.” The 5th International Conference on Econometrics and Statistics (EcoSta 2022). June 2022.
12. “Scalable and interpretable rare feature aggregation.” Department of Statistics, Kansas State University. April 2022.

13. "An amalgamation-based statistical learning paradigm for microbiome data." Biostatistics and Bioinformatics Branch at NICHD (virtual). January 2022.
14. "An amalgamation-based statistical learning paradigm for microbiome data." University of Pennsylvania (virtual). October 2021.
15. "An amalgamation-based and taxonomy-guided statistical learning paradigm for microbiome data." AISC 2021 (virtual). October 2021.
16. "Principal Amalgamation Analysis for compositional data." ENAR Spring Meeting (virtual). March 2021.
17. "Improving suicide risk prediction through integrative statistical learning." Guanghua Forum (virtual), Southwest University of Finance and Economics, Chengdu, China. September 2020.
18. "Large-scale integrative learning with applications." Syracuse University. November 2019.
19. "Targeted integrative learning with applications in suicide risk prediction." Mathematical Sciences, Worcester Polytechnic Institute. October 2019.
20. "Statistically guided divide-and-conquer for large-scale sparse matrix factorization." Department of Computer Science, University of Massachusetts Lowell. September 2019.
21. "Targeted integrative learning via distance segmented regression." Joint Statistical Meeting, Denver, CO. August 2019.
22. "Boosted sparse and low-rank tensor regression." 2019 Symposium on Data Science and Statistics, Seattle, WA. May 2019.
23. "Integrative Survival Analysis with Uncertain Event Times—Towards a Data Driven Suicide Prevention Framework." Department of Biostatistics, Yale University, New Haven, CT. April, 2019.
24. "Integrative Survival Analysis with Uncertain Event Times—Towards a Data Driven Suicide Prevention Framework." Mental Health Data Science, Department of Biostatistics, Columbia University, New York. December 2018.
25. "Integrative statistical learning with real world healthcare data: towards a data driven suicide prevention framework." 2018 Joint Statistical Meeting, Vancouver, Canada. August 2018.
26. "Stagewise Co-Sparse and Low-Rank Matrix Factorization." 2018 ICSA China Conference, Qingdao, China. July 2018.
27. "Sparse Log-Contrast Regression with Functional Compositional Predictors." The 8th International Forum on Statistics, Renmin University of China, Beijing, China. July 2018.
28. "Stagewise Co-Sparse Low-Rank Matrix Decomposition." 2018 ICSA Applied Statistics Symposium. New Brunswick, New Jersey. June 2018.
29. "Sparse Log-Contrast Regression with Functional Compositional Covariates." 2018 Modern Modeling Methods Conference. Storrs, CT. May 2018.
30. "Stagewise Co-Sparse and Low-Rank Matrix Factorization." Baruch College. New York. April 2018.
31. "Integrate, Divide, and Conquer: On Sparse and Low-Rank Multivariate Statistical Learning." School of Statistics, Beijing Normal University. Beijing, China. December 2017.
32. "Integrate, Divide, and Conquer: On Sparse and Low-Rank Multivariate Statistical Learning." School of Statistics, Renmin University of China. Beijing, China. December 2017.
33. "Integrate, Divide, and Conquer: On Sparse and Low-Rank Multivariate Statistical Learning." Health Informatics PIC Distinguished Speaker Series, IBM Watson Research Center, New York. November 2017.

34. "On Sparse and Low-Rank Models for Integrative Multivariate Statistical Learning." Biostatistics and Epidemiology, Weill Cornell Medical College, New York. November 2017.
35. "Dealing with uncertain suicidal deaths due to imperfect data integration: a first step towards a data-driven suicide prevention framework." Department of Mathematics and Statistics, Boston University, Boston, MA. October 2017.
36. "Integrative Cox regression for modeling uncertain survival records due to imperfect data integration." 2017 ICSA Applied Statistical Symposium, Chicago, IL. June 2017.
37. "Leveraging mixed and incomplete outcomes via reduced-rank regression." Modern Modeling Methods Conference, Storrs, CT. May 2017.
38. "On integrative learning of mixed and incomplete data." IMS/ASA Spring Research Conference, Rutgers University, New Brunswick, NJ. May 2017.
39. "Regularized mixture regression with mixed and incomplete outcomes." The 31st New England Statistics Symposium, Storrs, CT. April 2017.
40. "Using hospitalization and suicide mortality data to identify subpopulation of high suicide risk via survival modeling." AMIA 2016 Annual Symposium, Chicago, IL. November 2016.
41. "On large-scale predictive modeling of mixed and incomplete outcomes." Department of Mathematics & Statistics, University of Massachusetts, Amherst, MA. October 2016.
42. "Canonical variate regression for integrative analysis of genomics data."
  - Joint Statistical Meeting, Chicago. Topic-contributed session. August 2016.
  - Department of Biostatistics, Columbia University. Guest lecture. May 2016.
44. "Model diagnostics in reduced rank estimation." ICSA Applied Statistics Symposium, Atlanta, GA. June 2016.
45. "Robust multivariate mixture model via mean-shift penalization." Modern Modeling Methods Conference, Storrs, CT. May 2016.
46. "A tailored robust multivariate clustering approach via mean-shift penalization."
  - Center for Statistical Science, Peking University, Beijing, China. May 2016.
  - ICSA Conference on Data Science, Yunnan, China. July 2016.
48. "Sequential estimation in sparse factor regression."
  - Conference on Statistical Learning and Data Science, University of North Carolina at Chapel Hill. June, 2016.
  - Big Statistics & Data Science Joint Conference, Renmin University, China. May 2016.
  - Department of Statistics, Florida State University. April 2016.
  - Department of Mathematics and Statistics, Boston University. April 2016.
  - Department of Statistics, University of South Carolina. March 2016.
53. "Canonical variate regression."
  - Department of Statistics, University of Missouri Columbia. September 2015.
  - 60th World Statistics Congress (ISI 2015). August 2015.
55. "Linking lung airway structure to pulmonary function via hierarchical feature selection." ICSA Applied Statistics Symposium and 13th Graybill Conference, Fort Collins, CO. June 2015.
56. "Some recent developments on reduced rank modeling." Department of Mathematical Sciences, Worcester Polytechnic Institute, Worcester, MA. November 2014.

57. "On sparse and low-rank estimation in high dimensions." Department of Statistics, Kansas State University, Manhattan, KS. October 2014.
58. "On some low-rank models in multivariate time series analysis." International Conference on Advances in Interdisciplinary Statistics and Combinatorics, Greensboro, NC. October 2014.
59. "Sparse and orthogonal factor regression." 16th Meeting of New Researchers in Statistics and Probability. Harvard University, Boston, MA. August 2014.
60. "Sparse orthogonal factor regression in high dimensions with an application to eQTL data analysis."
  - WNAR Annual Meeting, Honolulu, HI. June 2014.
  - The 6th International Statistics Forum at Renmin University, Beijing, China. May 2014.
62. "Some recent developments on multivariate modeling." University of Science and Technology of China, Hefei, Anhui, China. May 2014.
63. "Sparse and low-rank regression in high dimensions. BIRS Workshop on Statistical and Computational Theory and Methodology for Big Data Analysis, Banff International Research Station, Banff, Alberta, Canada. February 2014.
64. "Source-sink reconstruction through regularized multi-component regression."
  - Department of Biostatistics, Brown University, Providence, RI. September, 2013.
  - IMS-China International Conference on Statistics and Probability, Chengdu, China. July 2013.
  - Department of Statistics, University of Connecticut, Storrs, CT. February 2013.
67. "Reduced rank estimation and its extensions." College of Mathematics and Software, Sichuan Normal University, Chengdu, China. June 2013.
68. "Adaptive reduced-rank estimation and its complexity." Department of Statistics and Actuarial Science, University of Iowa, Iowa City, IA. November 2012.
69. "Statistical source-sink reconstruction." Department of Statistics, Kansas State University, Manhattan, KS. October 2012.
70. "Regularized multivariate regression for rank reduction and variable selection." ICASA Applied Statistics Symposium, Boston, MA. June 2012.
71. "Some dimension reduction methods in high-dimensional multivariate regression." Department of Mathematics, Kansas State University, Manhattan, KS. April 2012.
72. "Reduced-rank stochastic regression with sparse singular value decomposition."
  - Distinguished Student Paper Award, ENAR Spring Meeting, Miami, FL. March 2011.
  - Department of Statistics, Kansas State University, Manhattan, KS. February 2011.
  - Department of Statistics, Oregon State University, Corvallis, OR. February 2011.
  - Department of Mathematics, Wake Forest University, Winston-Salem, NC. February 2011.
  - Department of Statistics, University of Wyoming, Laramie, WY. January 2011.
  - Department of Statistics, Western Michigan University, Kalamazoo, MI. January 2011.
  - Department of Statistics & Actuarial Science, University of Iowa, Iowa City, IA. September 2010.

79. "Statistical methods, cellular automata models and wavelets." International Workshop on Predator-prey Interactions in Marine Ecosystems, Oregon State University, Corvallis, OR. March 2010.
